## COMPANY HIGHLIGHTS

Spectur is an Australian company that provides totally unwired, solar-powered **Sensing, Thinking and Acting** camera-based systems. Spectur's AI-enabled platform not only detects potentially dangerous situations and illegal acts but can also relay warnings and alert police or appropriate departments through a centralised system. The Company's platform is the **first and only fully programmable safety and security solution** that works in remote and unpowered areas – without a cabled connection.

- The Company offers sales, rental, subscription and services built around its flagship camera and sensor-based surveillance platforms.
- Spectur can service multiple sectors, including construction, utilities, transport, logistics, infrastructure, resources, military, community services, government and other related business and government entities.
- The Company's solution is unique because it can sense, think and act without needing people, data cables or power cords.
- Businesses and governments can use Spectur's solutions to help stop theft, trespassing, illegal dumping and vandalism. It also has expanding applications in providing warning, emergency communications, safety solutions and as a general solar AI platform.
- The Company has a successful growth record, with over 2,500 systems deployed across more than 600 high-profile clients.
- Company-specific indicators of scope:
  - o Its systems are currently deployed in only 102 of Australia's 21,472 mobile towers;
  - o Installed 33 devices on beaches (another 18 to be added in near term) out of 12,000 beaches on a 60,000km coastline in Australia (i.e. <0.3% penetration);
  - o Work for 49 out of Australia's 562 councils;
  - o Signed on 253 building businesses out of 5,750 building businesses in the country with 20-plus FTEs (4% penetration).  
NB: Australia's \$360 billion building industry is becoming increasingly targeted by thieves as material prices skyrocket.
- Using artificial intelligence, solar power and unique hardware and software, Spectur's platform can help government institutions protect the community from floods, bushfires, tsunamis, storms and shark attacks.
- The system is 100% Australian designed, manufactured and coded, which is a key factor for institutional and government clients given the increased scrutiny around security risks related to Chinese products.
- With no comparable technology addressing these challenges, the #1 alternative for Spectur's target clients is usually to do nothing and accept the consequences.
- Spectur is aiming to replicate its success in WA and is expanding across Australia, New Zealand and select US states. The addressable market of even a limited additional expansion into the US is estimated at \$300 million-plus.
- The Company has the only fully programmable security and surveillance solution for remote unpowered AI cameras and therefore has no direct competition.

## INVESTMENT HIGHLIGHTS

- Securities Purchase Plan to raise a targeted A\$500,000, with the ability to take oversubscriptions to ~A\$1.15 million.
- Offer Price of A\$0.036 per share, representing a 29.4% discount to last traded price prior to announcement of the Offer on Thursday 14 July 2022.
- One Bonus Option issued for every two shares purchased under the SPP, at an exercise price of A\$0.066 and an expiry date two years from issue.
- Funds raised will be used to finance market expansion in regional Australia, globalised modular platform development, expansion of marketing program, purchase of additional inventory to mitigate supply chain risk, and associated costs, with this next phase of growth expected to take the company through to EBITDA breakeven.
- From FY18 to FY21, the Company more than doubled its total revenue from \$2.54 million to \$5.24 million, despite COVID headwinds.
- The Company has recently announced a 94% increase in weighted sales pipeline.
- SPP shares and options will be issued subject to shareholder approval, with an EGM intended to be held in August.

## TIMETABLE

<b>Record Date</b>	<b>5pm, Monday 18 July 2022</b>
<b>Offer Opens</b>	Tuesday 19 July
<b>Offer Closes</b>	5pm, Wednesday 3 August 2022
<b>Results Announced</b>	Monday 8 August
<b>EGM Estimated</b>	Wednesday 24 August 2022
<b>Shares Allotted</b>	Late August, pending shareholder approval at EGM

## INDUSTRY HIGHLIGHTS

- The global wireless security camera systems market size was valued at US\$5.91 billion in 2020, and is projected to reach US\$18.30 billion by 2030, registering a CAGR of 12.4% from 2021 to 2030.
- Cameras manufactured outside of Australia, particularly Chinese-made, route their data through Chinese servers – creating potential data security risks for government agencies.
- The target market for Spectur in Australia alone could be worth \$120 million based on current estimates.
- Currently, there is no technology comparable to Spectur’s in the market where the #1 alternative for Spectur’s target clients is usually to do nothing.
- Telco giant Singtel-Optus uses Spectur’s technology to protect its mobile towers. There are a total of 21,472 mobile towers in Australia across all telco providers.
- Evidence of increased occurrence of risk events:
  - The Black Summer bushfire in 2019 cost NSW, VIC, SA and QLD a combined ~\$10 billion, while also taking 26 lives, destroying 2,448 homes and burning 5.5 million hectares of land in NSW alone.
  - Large-scale flood events are occurring on an increasingly regular basis.
  - Crimes such as theft and illegal dumping are a constant threat where even multimillion-dollar organisations and government institutions fall victim.
    - o In 2021, copper theft left 2,000 residents in SA without power on one of their coldest days.
- As at 2019, illegal dumping was costing taxpayers \$80 million in clean-up costs alone.

## Letter to Shareholders

---

Dear Shareholder,

On behalf of the Board, Spectur Limited (**Company**) is pleased to offer you the opportunity to subscribe for additional fully paid ordinary shares in the Company (**New Shares**) through the Security Purchase Plan (**SPP Offer**).

As announced on 19 July 2022, the Company, as part of its current overall capital raising plan, has received approximately \$1.862 million via the Placement to sophisticated and professional investors at a share price of \$0.036.

The funds raised under the Placement and from the SPP Offer and related Shortfall Offer will be used to finance market expansion in regional Australia, globalised modular platform development, expansion of marketing program, purchase of additional inventory to mitigate supply chain risk, and associated costs, with this next phase of growth intended to take the Company through to EBITDA breakeven.

The SPP Offer seeks to raise approximately \$500,000, with capacity to accept oversubscriptions up to a maximum of \$1,150,000, at an issue price of \$0.036 per New Share, together with an entitlement to receive one free-attaching Bonus Option for every two New Shares subscribed. The Offer Price of New Shares represents a discount of 29.4% to the Company's closing price of \$0.051 on 14 July 2022 (being the last trading day prior to this Prospectus).

Under the SPP Offer, Eligible Shareholders have the opportunity to purchase up to \$30,000 worth New Shares, irrespective of their shareholding, without incurring brokerage or transaction costs. Eligible Shareholders who wish to apply for more than \$30,000 of New Shares are invited to apply under the separate Shortfall Offer, which is open to both Eligible Shareholders and the general public.

The Company is also running a Placement Participant Offer and Lead Manager Offer, details of which are covered in this Prospectus.

All Directors intend to participate in the SPP Offer.

A copy of this Prospectus has been lodged with the ASX and can be accessed on the ASX website ([www.asx.com.au](http://www.asx.com.au)) using the Company's ASX code 'SP3', or via the following link <https://spectur.investorportal.com.au/register-spp/>

Your participation under the SPP Offer is optional and you may elect to not participate, by doing nothing.

The SPP Offer opens on 19 July 2022 and will close at 5pm (WST) on 3 August 2022. Late applications may be accepted or rejected in the absolute discretion of the Company. The Company also reserves the right to vary the Closing Date without prior notice, subject to the Corporations Act and the Listing Rules.

If you are an Eligible Shareholder, you will be eligible to participate in the Security Purchase Plan on the terms set out in the Prospectus. Eligible Shareholders may request an electronic copy of their personalised SPP Offer Application Form using the above link.

Eligible Shareholders who wish to apply for more than \$30,000 of New Shares are invited to apply under the Shortfall Offer using the same BPAY code or EFT details as on their personalised SPP Offer Application Forms. Any amount in excess of \$30,000 will be considered an application under the Shortfall Offer.

The Company has appointed Reach Corporate Pty Ltd as Lead Manager to the SPP Offer and Shortfall Offer. If you have any questions on these Offers, please contact the Lead Manager on [advisers@reachmarkets.com.au](mailto:advisers@reachmarkets.com.au) or 1300 805 795.

## 2. Company and Business Matters

---

### 2.1 Activities

Spectur Limited (ASX:SP3) aspires to make communities safer in remote and unpowered areas by providing the only surveillance solution that can spot a problem, make a decision and take an action – without a cabled internet and power connection. The Company uses solar power and wireless technology to address safety, security, warning, communications and other challenges where access to wired power and internet is not available. The solar-powered, wireless devices and cloud system are uniquely programmable and address entire problems by sensing, thinking and acting, leveraging AI and the Internet of Things.

Spectur is an Australian based developer, manufacturer and integrated seller of hardware and software technology. The Company owns the rights to its innovative hardware and disruptive cloud-based systems which are deployed to provide solutions to industries including government and utilities, and the building, construction and civil sector. Spectur currently services the ANZ market, with offices in Perth, Sydney, Melbourne and Brisbane, and a joint venture office in Auckland.

### 2.2 Placement

As announced to ASX on 19 July 2022, the Company conducted a share placement to Exempt Investors (i.e. Placement Investors) at \$0.036 per Share, receiving firm commitments to subscribe for 51,733,777 Shares, raising approximately \$1,862,415 before costs (**Placement**).

Under the terms of the Placement, each Placement Participant is entitled to receive one free-attaching Bonus Option for every Share subscribed under the Placement.

None of the Placement Participants is a 'related party' of the Company under the Corporations Act or the Listing Rules.

The issue of Shares and Bonus Options under the Placement is conditional upon the Company obtaining Shareholder approval to do so under Listing Rule 7.1. The free-attaching Bonus Options are the subject of the Placement Participant Offer. The Company anticipates issuing the Shares under the Placement and the Bonus Options under the Placement Participant Offer immediately following such approval being obtained. Please refer to the Timetable set out in the Key Information section on page 1.

### 2.3 Purpose of Placement and Offers

The purpose of the Placement and the Offers is to raise between \$2,362,415 and \$3,012,415 before payment of costs, to be applied towards the following:

- The Company's regional expansion in South Australia and regional Australia. This will involve hiring a new salesperson in Adelaide, establishing facilities, and building, supporting, training and equipping new resellers in more regional locations outside of major capital cities.
- Development of the Company's globalised modular platform. This platform seeks to transform the proven customer product fit solutions that Spectur provides now, into a more modular, resilient and simpler platform that is suitable for expanded reseller assembly, use and support.
- Expanding the Company's marketing program. This includes building marketing/promotional content for use across multiple media channels, and globalising the digital assets of the Company (website, etc), making them suitable for the Company expansion plans.

- Purchasing further inventory to mitigate supply chain risk. This is intended to ensure continuity of supply for the current lifecycle of the Company's products and insulate against availability and price shocks that could otherwise occur in the coming two years.
- Preparing for the Company's entry to the USA. This is expected to involve planning and undertaking a market entry study, exploratory visits, and establishment of a local business entity, including obtaining necessary professional advice (e.g. legal, accounting), as well as inventory, branding and some specific marketing support. Some initial limited in-country staff, consultant or contractor support is also envisaged.
- Payment of the costs of the Offers and the Placement.

## 2.4 Proposed use of funds

The following indicative table sets out the proposed uses for funds raised under the Placement, the SPP Offer and the Shortfall Offer. It assumes scenarios for full subscription (i.e. \$500,000 raised) as well as full oversubscription (i.e. \$1,150,000 raised) under the SPP Offer and Shortfall Offer. The actual amount raised under the SPP Offer and Shortfall Offer may be less than \$500,000.

**Note:** Costs of the Placement and the Offers include the Lead Manager's fees and the other costs identified in Section 9.5.

If the SPP Offer or the Shortfall Offer is not fully subscribed, the Company will adjust the timing and scope of its planned operations and its work program may be adjusted and scaled back until additional funding is available.

The information set out in the above table is a statement of the Directors' present intentions as at the Prospectus Date. In the event that circumstances change or other opportunities arise, the Directors reserve the right to vary the proposed use of funds received to maximise benefits to Shareholders.

## 2.5 Establishment of Security Purchase Plan

The Company has established the Security Purchase Plan on the terms and conditions set out in this Prospectus, having regard to *ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547 (SPP Instrument)*.

In summary, a share purchase plan is a plan by a listed public company for the offer of up to \$30,000 worth of quoted shares in a 12-month period to existing shareholders. The SPP Instrument allows a company to undertake a share purchase plan using a reduced form offer document rather than a prospectus or other disclosure document, provided that the plan satisfies certain conditions set out in the instrument.

The Company is not able to rely on the SPP Instrument to make the SPP Offer as the Bonus Options are unquoted. Accordingly, the SPP Offer is made under this Prospectus. The Security Purchase Plan otherwise substantially reflects the structure of a share purchase plan made under the SPP Instrument.

## 2.6 General Meeting

The Company will seek to obtain Shareholder approval for the issue of New Securities under the Offers at a general meeting of the Company to be held on or about 24 August 2022 (**General Meeting**).

Specifically, the approvals sought will include:

- approval for the issue of the Shares and Bonus Options under the Placement and Placement Option Offer, for the purposes of Listing Rule 7.1;
- approval for the issue of the New Shares and Bonus Options under the SPP Offer and the Shortfall Offer to Applicants who are not 'related parties' under the Listing Rules, for the purposes of Listing Rule 7.1;
- approval for the issue of the New Shares and Bonus Options under the SPP Offer and the Shortfall Offer to Applicants who are 'related parties' under the Listing Rules, for the purposes of Listing Rule 10.11; and
- approval for the issue of the Lead Manager Options under the Lead Manager Offer, for the purposes of Listing Rule 7.1.

### 3. Details of the Offers

---

#### 3.1 SPP Offer

##### (a) Offer

Under the SPP Offer, the Company invites each Eligible Shareholder to subscribe for up to \$30,000 of New Shares at \$0.036 per New Share to raise up to approximately \$500,000 before costs, with capacity to accept oversubscriptions up to a maximum of \$1,150,000 before costs, under the Security Purchase Plan.

Each Eligible Shareholder who applies for New Shares under the SPP Offer will also receive one free-attaching Bonus Option for every two New Shares acquired under the SPP Offer.

Eligible Shareholders may only pay up to \$30,000 to subscribe for New Shares under the Security Purchase Plan in any 12-month period. This is consistent with the structure of a share purchase plan under the SPP Instrument. The maximum amount applies irrespective of the number of Shares held by a Shareholder on the Record Date or whether the Shareholder holds Shares in multiple accounts or capacities.

##### (b) Terms of securities

All New Shares issued pursuant to the SPP Offer will be issued as fully paid and will rank equally in all respects with the existing Shares then on issue. Please see a summary of the rights and liabilities of Shares in Section 7.1.

All Bonus Options issued pursuant to the SPP Offer will be issued on the terms and conditions set out in Section 7.2.

##### (c) Eligibility to participate

The SPP Offer is made to Eligible Shareholders only.

All Shareholders with a registered address in Australia or New Zealand, who are not US Persons and who were registered as the holder of Shares at the Record Date of 5:00pm (WST) on 18 July 2022 are Eligible Shareholders (except where a Shareholder holds Shares on behalf of another person who resides outside of Australia or New Zealand) and are entitled to participate in the SPP Offer. The SPP Offer is not extended to Shareholders who do not meet the criteria.

The Directors have determined that it is either not lawful or not practical for Shareholders in jurisdictions outside of Australia and New Zealand to participate in the Security Purchase Plan.

The Company reserves the right (in its sole discretion) to:

- reject any Application Form that it believes comes from a person who is not an Eligible Shareholder; and
- reduce the number of New Shares and corresponding Bonus Options allocated to Eligible Shareholders, or persons claiming to be Eligible Shareholders, if their claim to be entitled to participate in the SPP Offer proves to be false, exaggerated or unsubstantiated.

##### (d) Joint holders

Shareholders who are joint holders of Shares are taken to be a single registered Shareholder for the purposes of the Security Purchase Plan and the certification in the Application Form by any joint holder is taken to have been given by all joint holders.

A Shareholder who receives more than one invitation to participate in the Security Purchase Plan (e.g. if the Shareholder holds Shares in more than one capacity) may not apply for New Shares:

- with an aggregate value of more than \$30,000; or
- which would result in the aggregate value of the New Shares applied for (including through a Custodian (see Section 3.1(e) below)) under the Security Purchase Plan and any similar arrangement in the last 12 months being more than \$30,000.

(e) **Custodians**

An Eligible Shareholder who holds Shares as Custodian for one or more persons on the Record Date (**Beneficiaries**) may apply for up to the maximum number of New Securities for each Beneficiary for whom the Custodian holds Shares.

The Custodian must annex a certificate (**Custodian Certificate**) to its Application Form setting out the following information:

Item	Requirements
<b>Nature of relationship</b>	<p>Either or both of the following:</p> <ul style="list-style-type: none"> <li>• that the Custodian holds Shares on behalf of one or more Beneficiaries who are residents in Australia or New Zealand (each a <b>Participating Beneficiary</b>) who are not Custodians; or</li> <li>• that another Custodian (<b>Downstream Custodian</b>) holds beneficial interests in Shares on behalf of one or more Participating Beneficiaries, and the Custodian holds the Shares to which those beneficial interests relate on behalf of the Downstream Custodian or another Custodian,</li> </ul> <p>on the Record Date and that each Participating Beneficiary has instructed the Custodian or the Downstream Custodian (as applicable) to apply for New Securities under the Security Purchase Plan on their behalf.</p>
<b>Participating Beneficiary details</b>	The number of Participating Beneficiaries as well as their names and addresses.
<b>Holding</b>	<p>Either:</p> <ul style="list-style-type: none"> <li>• the number of Shares that the Custodian holds on behalf of each Participating Beneficiary; and/or</li> <li>• in the case of a Downstream Custodian, the number of Shares to which each Participating Beneficiary's beneficial interest relates.</li> </ul>
<b>Application amount</b>	The number or dollar amount of New Securities that each Participating Beneficiary has instructed the Custodian or the Downstream Custodian (as applicable) to apply for on behalf of each Participating Beneficiary.

Item	Requirements
<b>Confirmation that maximum application not exceeded</b>	<p>That the total Application Moneys for:</p> <ul style="list-style-type: none"> <li>• New Securities applied for under the Security Purchase Plan for each Participating Beneficiary for whom the Custodian acts, directly or indirectly through a Downstream Custodian does not exceed \$30,000; and</li> <li>• any other Shares issued to the Custodian or Downstream Custodian, in the capacity as custodian or nominee for each Participating Beneficiary, under any arrangement similar to the Security Purchase Plan in the last 12 months does not exceed \$30,000.</li> </ul>
<b>Provision of Prospectus to Beneficiaries</b>	That a copy of the Prospectus was given to each Beneficiary.
<b>Downstream Custodians</b>	In the case where Shares are held for a Downstream Custodian, the name and address of each Downstream Custodian.

Custodians should request a Custodian Certificate when making an Application on behalf of Participating Beneficiaries.

To request a Custodian Certificate or further information on how to apply, a Custodian should contact the Share Registry at any time from 8.30am to 5.00pm (WST) Monday to Friday during the Offer Period, using the contact details set out in the Corporate Directory section above.

If a Shareholder holds Shares as a trustee or nominee for another person or persons but is not a Custodian, that Shareholder cannot participate in the Security Purchase Plan for beneficiaries for whom they hold Shares in the manner described above, in which case the rules for multiple single holdings apply.

The Company reserves the right to reject any Application to the extent that it considers that the Application (whether alone or in conjunction with other Applications) does not comply with the Custodian requirements above.

(f) **Management of SPP Offer**

The Lead Manager has been appointed by the Company as lead manager for the SPP Offer.

(g) **Allocation and scale-back**

The Board reserves the right to scale-back any Application under the SPP Offer, at its absolute discretion.

If the Company receives Applications in excess of the targeted amount of the SPP Offer (i.e. in excess of \$500,000), then the Board may determine to:

- accept some or all of those oversubscriptions; or
- scale back Applications, in which case all Applications will be scaled-back on a pro rata basis having regard to the number of Shares applied for by an Applicant (or, in the case of an Application made by a Custodian, the relevant Beneficiary).

In determining the amount an application will be scaled back, the Company will consider (without limitation) the following factors:

- the size of the Applicant's shareholding;
- the extent to which the Eligible Shareholders have sold or bought additional Shares after the Record Date; and
- the date an Application was made.

Any entitlement to a fraction of a New Share or Bonus Option will be rounded down to the nearest whole number. The Company may retain any difference in the Application Moneys as a result of such rounding.

The Company cannot guarantee that all Applicants will receive the number of New Shares and corresponding Bonus Options for which they apply under the SPP Offer. If an Eligible Shareholder receives less New Shares and Bonus Options for which they applied, the excess Application Moneys will be refunded to the Eligible Shareholder without interest.

The Company will only issue New Shares to an Applicant where the Directors are satisfied, in their sole discretion, that the issue of the New Shares will not result in a person's (whether or not the Applicant) voting power exceeding any applicable takeover restriction under section 606 of the Corporations Act.

(h) **Non-renounceable**

An Eligible Shareholder's right to participate in the Security Purchase Plan and apply under the SPP Offer is not renounceable and cannot be assigned to any third party.

(i) **Voluntary participation**

Participation in the SPP Offer is voluntary. Eligible Shareholders who do not wish to participate do not need to take any action.

3.2 **Shortfall Offer**

(a) **Shortfall**

Any New Shares and corresponding Bonus Options not applied for under the SPP Offer will form the Shortfall.

(b) **Offer**

The Shortfall Offer is a separate offer to apply for the New Shares and corresponding Bonus Options comprising the Shortfall.

The price of New Shares under the Shortfall Offer is \$0.036, being the same price as which New Shares are offered under the SPP Offer.

An Applicant who applies for and receives New Shares under the Shortfall Offer will also receive one free-attaching Bonus Option for every two New Shares acquired under the Shortfall Offer. Any entitlement to a fraction of a Bonus Option will be rounded down to the nearest whole number.

The Shortfall Offer is made to the general public (including Eligible Shareholders), provided they are eligible under all applicable securities laws to receive an offer under the Shortfall Offer.

(c) **Terms of securities**

All New Shares issued pursuant to the Shortfall Offer will be issued as fully paid and will rank equally in all respects with the existing Shares then on issue. Please see a summary of the rights and liabilities of Shares in Section 7.1.

All Bonus Options issued pursuant to the Shortfall Offer will be issued on the terms and conditions set out in Section 7.2.

(d) **Management of Shortfall Offer**

The Lead Manager has been appointed by the Company as lead manager for the Shortfall Offer.

(e) **Allocation and scale-back**

In the event that Applications under the Shortfall Offer exceed the total amount of the Shortfall, the Directors will have absolute discretion as to how to allocate the Shortfall under the Shortfall Offer. In exercising this discretion:

- the Directors propose to allocate the Shortfall to both new investors and Eligible Shareholders in a manner considered appropriate to Applicants having regard to the best interests of the Company and the Company's desire to maximise the funds raised from the Offers;
- priority will be given to those Eligible Shareholders who hold less than a marketable parcel of Shares (that is, Shares with a value of less than \$500, which based on the Offer Price, represents 13,889 Shares)) so they may "top up" their shareholding to a marketable parcel of Shares;
- subject to the above, to the extent that Applications for the Shortfall are made by Eligible Shareholders, as between those Eligible Shareholders, the Directors will generally endeavour to allocate the Shortfall in a manner which is considered fair to those applicants, having regard to their existing shareholding interests;
- the Directors will not allocate any portion of the Shortfall to an applicant who is a 'related party' of the Company (for the purposes of the Listing Rules) in priority to, or to the exclusion of, any other Applicant;
- the Company will not allocate New Shares under the Shortfall Offer to the extent that an Applicant's voting power in the Company, together with that Applicant's Associates, exceeds the takeover thresholds in the Corporations Act (i.e., acquiring voting power of 20% or more in the Company, or increasing an existing controlling voting power of more than 20%); and
- the Directors will not otherwise exercise their discretion regarding allocation of the Shortfall in a manner likely to exacerbate a potential unacceptable control effect, except to the extent they consider necessary (acting reasonably) to prevent the issue of New Shares contrary to law or the Listing Rules.

The Company will refund (without interests) excess Application Moneys to an Applicant who does not receive any or all of the New Shares and corresponding Bonus Options for which they apply under the Shortfall Offer.

### 3.3 Placement Participant Offer

(a) **Offer**

Under the Placement Participant Offer, the Company invites each Placement Participant to apply for one Bonus Option for every two Shares for which they have subscribed under the Placement, for nil additional issue price.

(b) **Purpose**

The primary purpose of the Placement Participant Offer is for the Company to fulfil its contractual obligation to provide the Bonus Options to the Placement Participants, in accordance with the terms and conditions of the Placement.

By making the Placement Participant Offer under this Prospectus, the Company provides disclosure for the purposes of Chapter 6D of the Corporations Act in relation to the Bonus Options issued pursuant to the Placement Participant Offer. Accordingly, those Bonus Options (and any Shares issued on their exercise) will not be subject to secondary trading restrictions.

(c) **Terms of securities**

All Bonus Options issued pursuant to the Placement Participant Offer will be issued on the terms and conditions set out in Section 7.2.

### 3.6 Underwriting

None of the Offers are underwritten.

### 3.7 Shareholder approval condition

The issue of New Securities under each Offer to persons who are not 'related parties' for the purposes of the Listing Rules is conditional upon the Company obtaining the approval of its Shareholders under Listing Rule 7.1 at the General Meeting (see Section 2.6), to be held within 3 months of the Prospectus Date.

Similarly, the issue of New Securities under the SPP Offer and the Shortfall Offer to persons who are 'related parties' for the purposes of the Listing Rules is conditional upon the Company obtaining the approval of its Shareholders under Listing Rule 10.11 at the General Meeting, to be held within 3 months of the Prospectus Date.

Shareholder approvals at the General Meeting will be sought for each Offer separately.

If Shareholder approval is not obtained for the issue of New Securities under an Offer as outlined above, the Company will not issue those securities to the relevant Applicants. This will not affect the issue of New Securities to other Applicants under that Offer or the issue of New Securities under the other Offers, provided the applicable Shareholder approvals are obtained for the same.

The Company proposes to hold the General Meeting on or about 24 August 2022.

### 3.8 Quotation condition – New Shares

The SPP Offer and Shortfall Offer are conditional upon the New Shares to be issued under those Offers being admitted to quotation on ASX within 3 months after the Prospectus Date.

If this does not occur, New Securities will not be issued under the SPP Offer or Shortfall Offer, and Application Moneys will be refunded (without interest) as soon as practicable.

D	\$20,000	555,556	277,778
E	\$30,000	833,333	416,666

**Note:** The dollar values above have been rounded to the nearest whole dollar for the purposes of this table only. The actual values may differ by \$0.01-\$0.02.

Eligible Shareholders who wish to apply for a different number of New Shares to the table above should contact the Lead Manager to discuss making an Application, as follows:

#### (b) Payment of Application Moneys

Eligible Shareholders must pay the relevant Application Moneys using BPay® or by Electronic Funds Transfer (EFT) in accordance with the instructions on their personalised SPP Offer Application Form.

Each SPP Offer Application Form includes:

- the BPay® 'Biller Code' and the Eligible Shareholder's individual 'Customer Reference Number';

- personalised EFT payment details.

An SPP Offer Application Form may not be accepted if these details are incorrect. The BPay® 'Customer Reference Number' and personalised EFT details are used to identify each Eligible Shareholder's holding.

Eligible Shareholders with more than one holding of Shares may receive multiple BPay® 'Customer Reference Numbers' or EFT details, and can apply under one or more of their holdings, provided their Applications do not exceed 833,333 New Shares or \$30,000 in aggregate.

Eligible Shareholders can only make payment using BPay® if they have an account with an Australian financial institution that supports such transactions. Those who do not (for example, New Zealand resident Eligible Shareholders) should make payment by EFT.

Payments must be made in Australian dollars for an amount equal to the number of New Shares for which the Eligible Shareholder wishes to apply, multiplied by the Offer Price (i.e. \$0.036 per New Share).

By paying Application Moneys by BPay® or EFT, an Eligible Shareholder will be taken to have submitted an SPP Offer Application Form and made the declarations on the form.

Payment of Application Moneys by BPay® or EFT must be received before **5:00pm (WST) on the Closing Date.**

Eligible Shareholders should take into account that their individual financial institutions may implement earlier cut-off times for BPay® and EFT payments. It is each Eligible Shareholder's responsibility to ensure that the Application Moneys are received before the Closing Date.

(c) **Postal or email Applications**

To maximise contactless payments and processing, the Company encourages all Applicants to submit Applications under the SPP Offer using BPay® or EFT.

Eligible Shareholders may submit postal or email Applications only by special arrangement with the Lead Manager.

4.5 **No cooling-off rights**

Cooling-off rights do not apply to an investment in the New Shares. An Application is unconditional once it is submitted and cannot be withdrawn by an Applicant.

4.6 **Validity of Application Forms**

If an Application Form is not completed correctly, or if the accompanying payment is for an incorrect amount (if applicable), it may be treated by the Company as valid, at the Directors' discretion.

The Directors' decision as to whether to treat such an Application as valid and how to construe, amend or complete the Application Form is final. However, an Applicant will not be treated as having applied for more New Securities than is indicated by the amount of Application Money.

If the exact Application Moneys applicable to an Application are not tendered with an Application Form, the Company reserves the right to either:

- return the Application Form and refund the Application Moneys received (by cheque or EFT as soon as possible, without interest), and not issue any New Securities to the Applicant; or

- issue to the Applicant the maximum number of New Securities represented by the Application Moneys received, and refund any excess amount to that Applicant by cheque or EFT as soon as possible, without interest.

The Company reserves the right to accept a lesser amount to the total number of New Securities applied for by an Applicant on the Application Form (including if the SPP Offer or Shortfall Offer close oversubscribed), at the Directors' absolute discretion.

#### 4.7 **Effect of lodging Application Form**

Submission of an Application Form in accordance with this Prospectus, or making payment under the SPP Offer by BPay® or EFT in accordance with Section 4.1, constitutes a binding and irrevocable offer by the Applicant to subscribe for the number of New Securities specified in that Application Form or corresponding to the Application Moneys received. An Application Form does not need to be signed to be valid. Once an Application has been made, it cannot be revoked.

The Company reserves the right to refuse a completed Application Form if it has reason to believe that an Applicant has not received a copy of this Prospectus in paper or electronic form, or the Prospectus or Application Form provided to the Applicant has been altered or tampered with in any way.

#### 4.10 **Issue of New Securities**

Subject to satisfaction of the conditions of each Offer as stated in this Prospectus, New Securities under an Offer are expected to be issued on the date specified in the Timetable set out in the Key Information section on page 1.

The sale by an Applicant of New Securities prior to the receipt of a Holding Statement is at the Applicant's own risk.

#### 4.11 **CHESS and issuer sponsorship**

The Company participates in the Clearing House Electronic Sub-register System (**CHESS**), operated by ASX Settlement (a wholly owned subsidiary of ASX), in accordance with the Listing Rules and ASX Settlement Rules.

The Company operates an electronic issuer-sponsored sub-register and an electronic CHESS sub-register. The two sub-registers together make up the Company's principal register of its securities.

Under CHESS, the Company does not issue certificates to the holders of securities. Instead, the Company provides holders with a Holding Statement (similar to a bank account statement). A Holding Statement will be issued to successful Applicants, setting out the number of New Securities allotted and issued to them under this Prospectus. This Holding Statement will also advise Applicants of either their:

- Holder Identification Number (**HIN**) in the case of a holding on the CHESS sub-register; or
- Security Holder Reference Number (**SRN**) in the case of a holding on the issuer sponsored sub-register.

A Holding Statement is routinely sent to holders at the end of any calendar month during which their holding changes. A holder may request a statement at any other time; however, a charge may be incurred for additional statements.

#### 4.12 **Taxation implications**

The Directors do not consider that it is appropriate to give potential Applicants advice regarding the taxation consequences of applying for New Securities under this Prospectus, as it is not

possible to provide a comprehensive summary of the possible taxation positions for potential Applicants.

Neither the Company nor any of its advisers or officers accepts any responsibility or liability for any taxation consequences to potential Applicants in relation to the Offers. Potential Applicants should, therefore, consult their own tax adviser in connection with the taxation implications of the Offers.

#### 4.13 Privacy disclosure

The Company will collect information about each Applicant from the Application Forms for the purpose of processing the Application and, if the Applicant is successful, for the purposes of administering the Applicant's security holding in the Company.

By submitting an Application Form, each Applicant agrees that the Company may use the information in the Application Form for the purposes set out in this privacy disclosure statement.

The Company and the Share Registry may disclose an Applicant's personal information for purposes related to the Applicant's investment to their agents and service providers including those listed below or as otherwise authorised under the Privacy Act:

- the Share Registry for ongoing administration of the Company's register;
- the Lead Manager for the purposes of managing the SPP Offer, the Shortfall Offer and any ongoing communications on behalf of the Company;
- the Company's Related Bodies Corporate, agents, contractors and third party service providers, as well as to ASX, ASIC and other regulatory authorities (including the Australian Taxation Office); and
- the printers and the mailing house for the purposes of preparing and distributing Holding Statements and for the handling of mail.

If an Applicant becomes a security holder of the Company, the Corporations Act requires the Company to include information about the security holder (name, address and details of the securities held) in its public register. This information must remain in the Company's register of Shareholders even if that person ceases to be a security holder of the Company. Information contained in the Company's register of Shareholders is also used to facilitate distribution payments and corporate communications (including the Company's financial results, annual reports and other information that the Company may wish to communicate to its security holders) and compliance by the Company with legal and regulatory requirements.

If an Applicant does not provide the information required on the Application Form, the Company may not be able to accept or process their Application.

An Applicant can request access to their personal information by writing to the Company through the Share Registry.

**Notes:**

- The figures in the table above assume that other Shares are not issued (including on the exercise of Options or Performance Shares) prior to the close of the Offers.

2. The existing Options on issue comprise:
  - (a) 2,200,000 unquoted Options, exercisable at \$0.10 each on or before 30 June 2024;
  - (b) 2,250,000 unquoted Options, exercisable at \$0.12 each on or before 31 December 2023; and
  - (c) 2,100,000 unquoted Options, exercisable at \$0.13 each on or before 30 June 2024.
3. The existing Performance Rights on issue comprise 7,661,782 unquoted Performance Rights granted under the Company's Employee Incentive Plan, expiring 31 August 2024.
4. The Company anticipates full subscription under the Placement Participant Offer.

## 5.2 Potential dilution

Existing Shareholders' shareholding interests will be diluted by approximately 32.73% as a result of the issue of Shares under the Placement, as compared to their holdings and number of Shares on issue as at the Prospectus Date.

Eligible Shareholders should note that if they do not participate in the SPP Offer, their shareholding interests may be diluted by up to approximately 11.56% (or up to 23.11% on a full oversubscription basis) as a result of the issue of New Shares under SPP Offer and Shortfall Offer, as compared to their holdings and number of Shares on issue as at the Prospectus Date. The dilutive effect of the SPP Offer and Shortfall Offer will ultimately depend upon the level of subscription.

The Bonus Options and Lead Manager Options to be issued under the Offers will only have a dilutive effect on Shareholders if they are exercised. Existing Shareholders' shareholding interests may be diluted by up to approximately 27.09% (or up to 34.02% on a full oversubscription basis) as a result of the issue of Shares on exercise of these Options, as compared to their holdings and number of Shares on issue as at the Prospectus Date.

## 5.3 Effect on control

The maximum number of Shares proposed to be issued under the Placement and the Offers is between 65,622,665 and 83,678,221 which will constitute between approximately 38.17% to 44.04% of the Shares on issue following completion of the Offers (assuming no other Shares are issued prior to the Record Date).

If all Bonus Options and Lead Manager Options to be issued under the Offers are exercised, between a further 34,311,333 and 43,339,111 Shares will be issued, representing between approximately 19.96% to 21.81% of the Shares on issue following completion of the Offers (assuming full oversubscription under the SPP Offer or Shortfall Offer, and no other Shares are issued prior to the Record Date).

The potential effect of the Placement and the Offers on the control of the Company, and the consequences of that effect, will depend on several factors, including investor demand and existing Shareholdings.

However, the Directors do not consider that the Placement or the Offers will have any material impact on the control of the Company. In this regard:

- none of the Placement Participants or their Associates is known to have attained voting power in the Company above 20% as a result of participating in the Placement;
- none of the Eligible Shareholders or their known Associates is expected to increase their voting power in the Company above 20% as a result of participating in the SPP Offer; and
- New Shares will only be issued to an Applicant under the Shortfall Offer where the Directors are satisfied that the issue of the New Shares will not result in that Applicant's and their Associates' voting power increasing above 20%.

#### 5.4 **Substantial Shareholders**

Based on publicly available information as at Prospectus Date, there are no persons who, together with their Associates, have a known voting power of 5% or more of the Shares on issue (i.e. have a substantial holding under the Corporations Act).

## 6. Risk Factors

---

### 6.1 Introduction

Investors wishing to subscribe for New Securities under an Offer should read this Prospectus in its entirety in order to make an informed assessment of the effect of the issue of New Securities in the Company, as well as the rights and liabilities attaching to New Securities.

Potential Applicants should carefully consider whether New Securities in the Company are an appropriate investment for them and should appreciate that the price of the Company's securities can fall as well as rise.

New Securities offered by this Prospectus should be viewed as speculative. Potential Applicants should be aware of, and take into account, the risk factors associated with investing in the Company.

This Section 6 is not intended to be an exhaustive list of the considerations to be taken into account by potential Applicants in deciding whether or not to subscribe for New Securities, nor all of the risk factors to which the Company is exposed. Some of these risks can be mitigated by the use of safeguards and appropriate systems and actions, but many are outside the control of the Company and cannot be mitigated.

There are risks associated with investing in any form of business and with investing in the share market generally. All potential Applicants should consult their professional advisers if they are in any doubt as to any aspect of this Prospectus, the Offers or any other matter relating to an investment in the Company.

### 6.2 Company and industry specific risks

The following risks have been identified as being key risks specific to an investment in the Company and the industry in which it operates. These risks have the potential to have a significant adverse impact on the Company and may affect the Company's financial position, prospects and price of its listed Securities.

#### (a) Competition

The security and surveillance industry is a competitive sector that is increasingly leveraging technology, particularly in relation to automation of systems as well as development of new and improved software functions. There are a number of other security and surveillance businesses which have announced products, systems and services that appear similar to the Company's.

There is a risk that existing competitors or new entrants to the market may develop superior or more cost-effective products, systems or services which could have an adverse effect on the Company's ability to continue development and commercialisation of its security, safety, warning and surveillance products and the IOT Management Platform, and therefore the Company's business and financial position.

#### (b) Commercialisation and market risks

The Company has operated a trading business which has supplied its security surveillance products and systems, in various models/versions, since 2009. While the Company's product and service offering is in full commercial operation and it has many standing contracts to supply the same to its clients, this does not guarantee that its products and services will continue to generate ongoing market interest. The Company's business and financial success will depend upon its ability to continue commercialising and to expand its products and services, grow its client base and

generate revenue. Failure to do so may have an adverse effect on the Company's business and financial position.

Further, the Company is seeking to provide services based on historical and existing market trends, as well as to create and develop new markets. There is no assurance of the continued growth in existing markets nor that the new markets which it is seeking to supply will develop as targeted.

(c) **Reliance on key personnel**

The Company's success depends to a significant extent upon its key management personnel, as well as other employees and technical personnel, including partners. A failure to attract and retain executive, business development, technical and other key personnel could reduce the Company's revenues and operational effectiveness. There is a continuing demand for relevant qualified personnel, and the Company believes that its future growth and success will depend upon its ability to attract, train and retain such personnel.

The Company's potentially ground-breaking innovative technological developments have come about through its team of key operational personnel. It has sought to foster a workplace environment which encourages innovation and technical thought-leadership.

The loss of the services of any of the Company's key personnel could impact development, particularly given the challenging employment market within Australia.

(d) **Technical and software development risk**

The Company's market involves rapidly evolving products and technological change. To succeed, the Company will need to research, develop, design, manufacture, assemble, test, market and support both enhancements to its existing products, as well as new products, on a timely and cost-effective basis. The Company cannot guarantee that it will be able to engage in development at the requisite levels. The Company cannot guarantee investors that it will successfully identify new technological opportunities and continue to have the needed financial resources to develop new products in a timely or cost-effective manner. At the same time, products and technologies developed by others could render the Company's products and systems obsolete or non-competitive.

The Company's security, safety, warning and surveillance products and systems (including the IOT Management Platform) contain, and other products and systems developed by the Company will contain, complicated software programming. The Company is seeking to advance its programme to develop and launch new and innovative functionality for its products and systems. Its products and systems may therefore contain (now or in the future) software errors or vulnerabilities. Any errors or vulnerabilities discovered could result in (among other consequences) damage to the Company's brand, loss of clients and liability for damages, any of which could adversely affect the Company's business and financial position.

(e) **Security breaches, data loss, theft or corruption**

The Company's security, safety, warning and surveillance product and service offering is predominately operated through the use of computer and internet systems. Hacking or exploitation of some unidentified vulnerability in the Company's network could lead to loss, theft or corruption of data and negatively affect the Company's reputation, business and financial position. Accordingly, the Company has taken significant measures to protect the integrity and security of its systems.

The Company stores data from clients' security surveillance cameras in a secure cloud-based system. This third-party system adopts advanced security and anti-hacking

technologies. The cloud service provider for image storage is intended to protect stored data from hacking and reflects industry best practise for prevention of data loss.

The Company's security surveillance cameras themselves are autonomous and designed to continue monitoring, triggering alerts and recording images, even in the event of network disruptions and limited or no internet connectivity.

Further, data from the Company's security surveillance cameras is encrypted whilst it is being transmitted over the internet. Financial data and surveillance footage image sequences are not stored on the Company's own servers which is intended to ensure that failure of the Company's servers will not result in significant data loss to clients.

However, with cyber security threats and attacks (including denial of service attacks which impede a user accessing their computer network) becoming more prevalent and innovative across the world, there remains an inherent risk that the Company's systems may be breached or that data may be corrupted. If this was to occur, or if its products or systems are subject to cyber-attacks that restrict client access, the Company's ability to service its clients may be adversely affected notwithstanding the measures outlined above.

(f) **Manufacturing and Supply Chain Risk**

The Company manufactures and assembles its security hardware in Perth from local and imported parts. Operational difficulties may arise with component suppliers and shipping, including reductions in production capacity, errors in complying with product specifications, insufficient quality control, failures to meet production deadlines, increases in costs and increased lead times. Industrial action or workforce issues with contract suppliers may lead to delays in the production of critical components.

The price of components for the Company products could also increase reducing the profit margin per product. If there are delays in product development due to contracted manufacturers or suppliers, it could mean a delay in the release of products which could have a negative effect on revenues.

6.3 **General investment risks**

The business activities of the Company are subject to various general economic and investment risks that may impact the future performance of the Company. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but some are outside the control of the Company and cannot be mitigated. There are a number of general economic and investment risk factors that apply to companies generally and may include economic, financial, market or regulatory conditions. These risk factors include, but are not limited to, the following:

(a) **Future capital requirements**

The Company's ongoing activities may require further financing in the future for its business activities, in addition to amounts raised pursuant to the SPP Offer and the Shortfall Offer. Any additional equity financing may be dilutive to Shareholders or may be undertaken at lower prices than the Offer Price. Any equity or debt financing may involve restrictive covenants which limit the Company's operations and business strategy.

Although the Directors believe that additional capital can be obtained, there cannot be any assurance that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all. Further, there is a risk that the financiers under existing finance arrangements may be adversely affected by economic or other matters outside of the Company's control which may delay or impede the drawdown of funds when required.

If the Company is unable to obtain additional financing or drawdown existing financing as needed, it may be required to reduce, delay or suspend its operations, which may result in a material adverse effect on the Company's activities and its ability to continue as a going concern.

(b) **Liquidity & volatility**

There is a risk that, particularly in times of security market turbulence or negative investor sentiment, there will not be a highly liquid market for the Company's Shares or that the price of the Company's Shares may decrease considerably. There may be relatively few buyers or sellers of Securities on ASX at any given time and the market price may be highly volatile.

This may result in holders wishing to sell their Shares in the Company in circumstances where they may receive considerably less than the price paid under an Offer (where applicable).

(c) **General economic conditions**

Economic conditions, both domestic and global, may affect the performance of the Company. Factors such as fluctuations in currencies, commodity prices, inflation, interest rates, supply and demand and industrial disruption may have an impact on operating costs and share market prices. The Company's future possible revenues and Securities prices can be affected by these factors, all of which are beyond the control of the Company and its Directors.

(d) **Equity market conditions**

Shares listed on a securities market, and in particular shares of small companies at earlier stages of commercial development, can experience price and volume fluctuations that are often unrelated to the operating performances of such companies. The market price of Shares may fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general. These security market conditions may affect the value of Shares regardless of the Company's operating performance.

General factors that may affect the market price of Shares include economic conditions in both Australia and internationally, investor sentiment, local and international share market conditions, changes in interest rates and the rate of inflation, variations in commodity prices, the global security situation and the possibility of terrorist disturbances, changes to government regulation, policy or legislation, changes which may occur to the taxation of companies as a result of changes in Australian and foreign taxation laws, changes to the system of dividend imputation in Australia, and changes in exchange rates.

(e) **General changes in government policy & legislation**

Any material adverse changes in relevant government policies or legislation of Australia or internationally may affect the viability and profitability of the Company, and consequent returns to investors.

(f) **Investment risk**

The New Securities offered pursuant to this Prospectus should be considered speculative. There cannot be any assurance as to payment of dividends, return of capital or the market value of Shares. In particular, the price at which an investor may be able to trade Shares may be above or below the price paid for those Shares.

Prospective Applicants must make their own assessment of the likely risks and determine whether an investment in the Company is appropriate having regard to their own particular circumstances.

(g) **Insurance**

The Company adequately insures its operations in accordance with industry practice. However, in certain circumstances, the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or only partially covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.

(h) **COVID-19 Pandemic**

The coronavirus disease (**COVID-19**) is impacting global economic and securities markets. The nature and extent of the effect of the outbreak on the performance of the Company in the future remains unknown. The price of Shares may be adversely affected in the short to medium term by additional uncertainty caused by COVID-19. Further, any governmental or industry measures taken in response to COVID-19, (i.e. further lockdowns in Australia), may adversely impact the Company's operations and are likely to be beyond the control of the Company.

In compliance with its continuous disclosure obligations, the Company will continue to update the market regarding the impact of the coronavirus on its revenue channels, supply chain and adverse impact on the Company. If any of these impacts appear materially adverse prior to close of the Offer, the Company will notify investors under a supplementary prospectus.

(i) **Supply chains**

The global supply chain for semiconductors and other electronic components has been severely impacted in the last two years, affecting all industries that incorporate electronics. Hoarding, growing demand and interrupted supply has and can continue, leading to long delays in availability or unforeseen end-of-life issues.

The Company seeks to identify and source key electronics components, with a view to securing longer term supplies that will mitigate supply chain interruptions. These interruptions can still occur, requiring re-design or substantial delays in the ability to provide hardware. This can impact the ability to generate new sources of hardware-based revenue.

(j) **Other**

Other risk factors include those normally found in conducting business, including litigation resulting from the breach of agreements or in relation to employees (through personal injuries, industrial matters or otherwise) or any other cause, strikes, lockouts, loss of service of key management or operational personnel, non-insurable risks, delay in resumption of activities after reinstatement following the occurrence of an insurable risk and other matters that may interfere with the business or trade of the Company.

## 7. Details of New Securities

---

### 7.1 Rights and liabilities attaching to New Shares

Full details of the rights and liabilities attaching to Shares are contained in the Constitution and, in certain circumstances, are regulated by the Corporations Act, the Listing Rules, the ASX Settlement Rules and the common law. The Constitution is available for inspection free of charge at the Company's registered office and on the Company's website, [www.spectur.com.au](http://www.spectur.com.au).

The following is a broad summary (though not necessarily an exhaustive or definitive statement) of the rights and liabilities attaching to Shares:

(a) **Share capital**

All issued Shares rank equally in all respects.

(b) **Voting rights**

At a general meeting of the Company, every holder of Shares present in person, by an attorney, representative or proxy has one vote on a show of hands and on a poll, one vote for each Share held, and for every contributing share (i.e. partly paid) held, a fraction of a vote equal to the proportion which the amount paid up bears to the total issue price of the contributing share. Where there is an equality of votes, the chairperson has a casting vote.

(c) **Dividend rights**

Subject to the Corporations Act, the Listing Rules and any rights of persons entitled to shares with special rights to dividends (at present there are none), all dividends as declared by the Directors are to be payable on all such shares in proportion to the amount of capital paid or credited as paid on the shares during any portion or portions of the period in respect of which the dividends is paid, unless the share is issued on terms providing to the contrary.

(d) **Payment of dividends**

Dividends are payable out of the assets of the Company in accordance with section 254T of the Corporations Act and as determined by the Directors, which shall be conclusive. The Directors may direct that payment of the dividend be made wholly or in part by the distribution of specific assets or other securities of the Company.

(e) **Rights on winding-up**

Subject to the Corporations Act, the Listing Rules and any rights or restrictions attached to a class of Shares, the liquidator may on winding-up of the Company, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company and may for that purpose set such value as the liquidator considers fair upon any property to be so divided and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

(f) **Transfer of Shares**

Subject to the Constitution, Shares in the Company may be transferred by:

- a proper ASX Settlement transfer or any other method of transferring or dealing in Shares introduced by the ASX or operated in accordance with the ASX Settlement Rules or the Listing Rules as recognised under the Corporations Act; or

- an instrument in writing in any usual or common form or in any other form that the Directors, in their absolute discretion, approve from time to time.

(g) **Refusal to transfer Shares**

The Directors may refuse to register a transfer of Shares (other than a proper ASX Settlement transfer) only where:

- the law permits it;
- the law requires it; or
- the transfer is a transfer of restricted securities (as defined in Listing Rule 19.12) which is, or might be, in breach of the Listing Rules or any escrow agreement entered into by the Company in respect of those restricted securities.

(h) **Further increases in capital**

Subject to the Constitution, the Corporations Act and the Listing Rules:

- Shares in the Company are under the control of the Directors, who may allot or dispose of all or any of the Shares to such persons, and on such terms, as the Directors determine; and
- the Directors have the right to grant options to subscribe for Shares, to any person, for any consideration.

(i) **Variation of rights attaching to shares**

The rights attaching to the shares of a class (unless otherwise provided by their terms of issue) may only be varied by a special resolution passed at a separate general meeting of the holders of those shares of that class, or in certain circumstances, with the written consent of the holders of at least seventy-five percent (75%) of the issued shares of that class.

(j) **General meeting**

Each holder of Shares will be entitled to receive notice of, and to attend and vote at, general meetings of the Company and to receive notices, accounts and other documents required to be furnished to Shareholders under the Constitution, the Corporations Act and the Listing Rules.

## 7.2 **Terms and conditions of Bonus Options**

The terms and conditions of the Bonus Options are set out below:

(a) **Issuer**

The issuer of each Bonus Option is the Company.

(b) **Entitlement**

Each Bonus Option entitles the holder to subscribe for, and be issued with, one Share.

(c) **Exercise price**

The exercise price payable on exercise of each Bonus Option is \$0.066 (**Exercise Price**).

(d) **Expiry date**

Each Bonus Option comes into effect upon being issued and will expire at 5:00pm (WST) on the date falling 2 years from the date of issue (**Expiry Date**).

(e) **Quotation**

The Company will not apply for quotation of Bonus Options.

(f) **Transfer**

Subject to any restrictions under the Listing Rules or applicable law, each Bonus Option is transferrable at any time before the Expiry Date, by

- a written instrument of transfer in any usual form or in any other form approved by the directors of the Company that is permitted by law.

(g) **Expiry and cancellation**

Each Bonus Option which has not been exercised before the Expiry Date will automatically lapse and be cancelled on the Expiry Date.

(h) **Exercise**

The holder may exercise a Bonus Option by giving the Company or its securities registry, at the same time:

- a written exercise notice (in the form approved by the directors of the Company from time to time) (**Exercise Notice**) specifying the number of Bonus Options being exercised;
- payment of the Exercise Price for the Bonus Options being exercised, by way of cheque or by other means of payment approved by the Company; and
- any certificate for the Bonus Options being exercised.

An Exercise Notice will be deemed to be a notice of the exercise of the Bonus Options specified in that notice as at the date of receipt.

Unless the Company otherwise agrees, Bonus Options may only be exercised in minimum parcels of 10,000 or more, unless fewer than 10,000 Bonus Options are held, in which case all such Bonus Options must be exercised.

A Bonus Option will be deemed to have been exercised on the date the Exercise Notice is lodged with the Company or its securities registry.

(i) **Issue of Shares**

The Company must issue to the holder a Share for an exercised Bonus Option within 10 Business Days after receiving a valid Exercise Notice.

A Share issued upon exercise of a Bonus Options will rank equally in all respects with all other Shares then on issue.

The Company will apply to ASX for official quotation of a Share issued on exercise of a Bonus Option.

(j) **Excluded rights**

A Bonus Option does not confer on the holder any right to:

- vote on any resolution proposed at a general meeting of the Company, except and only to the extent required by applicable law;
- receive a dividend by the Company, whether fixed or at the discretion of the directors of the Company;
- a return of capital by the Company, whether on winding-up of the Company, a reduction of capital or otherwise; or
- participate in the surplus profits or assets of the Company on winding-up of the Company.

(k) **Rights of participation**

(i) **General**

A Bonus Option does not confer on the holder any participation or entitlement right inherent in holding Shares or other securities in the Company.

(ii) **New issues**

A Bonus Option does not confer on the holder any right or entitlement to participate in a new issue of Shares or other securities to the Company's shareholders unless the holder has exercised the Bonus Option and a new Share has been issued before the record date for determining entitlements to participate in the proposed new issue, and may participate as a result of holding such Share.

The Company must give the holder notice given to the Company's shareholders regarding a proposed new issue of Shares or other securities, in accordance with the Listing Rules.

(iii) **Bonus or pro rata issues**

If the Company makes a bonus issue or pro rata issue of Shares or other securities to its shareholders (except an issue in lieu of dividends or by way of dividend reinvestment) after the grant of a Bonus Option, but before the Expiry Date or the issue of a Share on exercise of the Bonus Option, then the number of underlying Shares over which the Bonus Option is exercisable will be adjusted in accordance with the Listing Rules.

(l) **Reorganisations**

If there is a reorganisation (including consolidation, sub-division, reduction or return) of the share capital of the Company (**Reorganisation**), then:

- the rights of the holder (including the number of Bonus Options to which the holder is entitled) will be adjusted in accordance with the Listing Rules applicable at the date of the Reorganisation;
- any calculations or adjustments which are required to be made will be made by the Company's directors and will, in the absence of manifest error, be final and conclusive and binding on the Company and the holder; and
- the Company must, within a reasonable period, give to the holder notice of any change to the number of Shares for which the holder is entitled to subscribe for

on exercise of Bonus Options and other changes to the Bonus Options as required by the Listing Rules.

The Company is entitled to assume that the issue of Shares on the exercise of Bonus Options will not result in the holder or any other person being in contravention of section 606 of the Corporations Act, unless the Company has actual notice to the contrary.

(n) **Conflict**

If the terms of the Bonus Options conflict with or do not comply with any applicable law (including the Corporations Act, the Listing Rules or the Company's Constitution), the holder authorises the Company to do anything necessary to rectify such conflict or non-compliance, including but not limited to amending these terms to minimum extent necessary to remedy such conflict or non-compliance.
